## PRESIDENT'S MESSAGE

### President Jack Bagley

The celestial calendar indicates the vernal equinox has arrived on March 19.

The clocks have been moved forward in most parts of the country to allow more daylight at the end of day.

Flowers are blooming and the soil is benefiting from more sunlight to allow a release of green shoots in most parts of the country (For those in colder regions have faith!)

It looks like the availability of vaccines will reduce the vulnerability for virus infections, but variants continue to appear as warm weather arrives. Be safe.

Warm weather creates better conditions to get your Belties ready for regional fairs and shows. It will be a welcome relief for owners, especially Juniors. We are hoping the cancellations of 2020 events will be replaced by a more normal schedule of events. It will be good to see all of our participants in the rings again.

This edition of the News has information on upcoming shows, field days and sales. All of which are opportunities to meet with your fellow Beltie Buddies!

# 2021 NATIONAL BELTED GALLOWAY SALE UPDATES

by Dustin James, Sale Manager

I hope you are all well and that Spring has finally sprung in your area. I know here in Maine we have been spoiled with an earlier than normal Spring and the cattle certainly are enjoying it! With that, we are excited to announce the lineup for this year's National Belted Galloway Sale.

The sale will be held on May 1 at 2:00pm at the Eastern States Exposition in West Springfield, MA. We would love to have you join us for a weekend of catching up with the breeders you've gone so long without seeing due to the pandemic. I think we are all ready to move forward and at least establish some form of normalcy. For those of you unable to attend, the sale will also be hosted live online via [www.salering.live](http://www.salering.live) - I encourage you to join us virtually, we would love to have you.. We have plenty of trucking available and look forward to an excellent sale. If I can do anything to help or answer any questions about the sale offering please don't hesitate to reach out. Please see the online version of the sale catalog posted here: [www.beltedgallowaysale.com](http://www.beltedgallowaysale.com)

## REGISTERING A BELTED GALLOWAY BULL

All bulls born on or after January 1, 2018 are required to be DNA and hypotrichosis tested BEFORE registration. A request to the Executive Director's office [executivedirector@beltie.org](mailto:executivedirector@beltie.org) must be made to generate the required paperwork to submit samples to the UC Davis.

Fees for the mandatory DNA and hypotrichosis testing are \$65.

Bulls born on January 1, 2018 or after, may be registered with the CLRC for \$30 after the DNA and hypotrichosis testing are completed. For bulls born before January 1, 2018 -- DNA or hypotrichosis testing is not a requirement. Fees for registration will remain \$50. The Executive Director's office will notify the breeder with the test results and an authorization for registration.

### Samples, Fees & Testing Results

All samples (hair or semen) are to be sent to the official laboratory listed. (Note: semen straws do not have to be frozen but need to be protected from breakage.) All payments (\$65 per animal – payable to the BGS) are to be sent to the Executive Director. No results will be released until payment has been received.

The official laboratory will report the test results to the Executive Director's office who records the results and forwards it to the Canadian Livestock Records Corporation. The report is emailed or mailed to the member who made the request. The member may now complete

the application for registration to the CLRC (and mail the registration fee of \$30 to the CLRC). Remember to include a semen certificate if the animal was the result of AI. The dam of a calf born as a result of embryo transfer must be DNA recorded with the CLRC. In addition the donor cow has to be hypo tested if she is flushed after Jan. 1, 2018.

### Application for Registration Helpful Hints

- The Application for Registration is available on [beltie.org](http://beltie.org) or on [clrc.ca](http://clrc.ca).
- Online registrations are available on [clrc.ca](http://clrc.ca) after an online account is established.
- The animal name is limited to 35 characters.
- Animals are required to be tattooed before registration.
- A semen certificate must accompany the registration of any animal that is the result of artificial insemination.
- A leased bull agreement may be on file for the sire of an animal to be registered, or a signature is required by the owner of leased bull who sired the calf.
- Performance records are optional.
